Zoo vehicles	<ul style="list-style-type: none"> All staff driving ZSL vehicles on site are aware of speed restrictions and other safety precautions when driving on site 	Low

What do the risk levels mean?	
Low	A minor injury/minor health effect may occur. Monitoring is required to ensure suitable and sufficient control measures are maintained.
Medium	A significant injury may occur however the injured person would make a full recovery. Any health effects would be temporary. The effectiveness of control measures must be considered and implemented.
High	A fatality, serious injury or a permanent health condition where a full recovery is not expected may occur. Work should be halted and access restricted until control measures have been implemented.
